

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Important

To Old Subscribers to THE BOTANICAL GAZETTE.

The receipt of \$4.00 from a present subscriber, to cover his own subscription for one year in advance, together with that of a new subscriber for the same time, entitles the sender to the extension of his subscription six months without additional charge.

The publishers hope that this indication of their willingness to recognize in a substantial manner the assistance accorded them will induce the friends of the journal to put forth special effort to increase its circulation. A larger subscription list means a larger, better and more attractive journal.

Publishers of THE BOTANICAL GAZETTE.

AGRICULTURAL SCIENCE.

This magazine is devoted to the sciences underlying agriculture, and contains a great deal of matter appertaining to Botany.

IT IS STRICTLY SCIENTIFIC.

Each number contains articles of original research, with abstracts from contributions in scientific publications of various countries.

THIS IS THE ONLY JOURNAL OF ITS KIND IN THE ENGLISH LANGUAGE.

Subscription Price:

\$2.00 PER YEAR.

C. S. PLUMB, Editor and Publisher,

Please mention **BOTANICAL GAZETTE**.

KNOXVILLE, TENN.

Fresh-water Algæ of the United States, Complemental to Desmids of U. S.

In two volumes, the one containing the **TEXT**, 364 pp., and the other the **ILLUSTRATIONS**, representing on 157 plates nearly all of the forms described in the **TEXT**; the figures, over two thousand, are colored after nature.

A large portion of the plants were identified for the first time in this country by the author and added to our flora.

The two volumes, well bound in cloth, and securely packed and mailed to any part of the United States, Canada or Europe, on the receipt of Ten Dollars.

Address the author and publisher,

FRANCIS WOLLE,
Bethlehem, Pa.

Patterson's Herbarium List of North American Plants

is the only check-list of the kind ever printed in large type, on fine paper. Bound in cloth. Price \$1.75. Send for a copy, or for sample pages, to

H. N. PATTERSON, Oquawka, Ill.

BOTANICAL PAPER.

BAUSCH & LOMB OPTICAL CO.,

MANUFACTURERS OF

Microscopes, Telescopes,

PHOTOGRAPHIC LENSES,

And other Optical Instruments.

Factory and Office: ROCHESTER, N. Y.—531-543 N. St. Paul St.

Branch Office: NEW YORK—48-50 Maiden Lane.

Eleventh edition of illustrated catalogue, with a number of improvements and additions in the line of microscopes, will be sent free on application to any person interested in microscopy.

HERBERT R. SPENCER & CO.,

GENEVA, N. Y.

MICROSCOPE OBJECTIVES

OF THE HIGHEST GRADE.

We call particular attention to our Homogeneous Immersion Objectives. They are constructed on a new formula, are of wide angle, and long working distance. These objectives have been pronounced by eminent microscopists to be unrivalled. To those wishing to purchase a cheaper grade of objectives, we can recommend our "Professional" and "Student's" series as of the very best quality, for their respective grades.

We guarantee all our objectives to be perfectly uniform in quality.

Price-list and circulars free on application.

ANNOUNCEMENT

OF THE

BOTANICAL GAZETTE

For 1888.

When the GAZETTE entered upon its new career in 1886, greatly increased in size and with improved typographical and illustrative features, all in much larger ratio than the advance in subscription price, there was some apprehension on the part of its editors and friends that the financial support would not keep pace with the increased cost, and a curtailment in some direction would be necessary.

THE BEST GUARANTEE OF STABILITY

the publishers can offer for the future, or need to offer, is a reference to the well maintained monthly issues from January, 1886, to the present time. The volume for 1886 contained 356 pages, 12 plates, two of which were double size, and 13 cuts in the text; the eleven preceding numbers of the present year have contained 234 pages, 15 plates, one being double size, and 15 cuts in the text. Taking these statistics in connection with the quality of the subject matter, and no further argument is needed to show that progress, not retrogression, is to be as much a feature of the second decade of the journal as it was of the first. The journal is in some sense a

MIRROR OF AMERICAN BOTANY,

and for this is indebted to the hearty coöperation of the botanists of the country, nearly every one of whom is a contributor to its pages.

Botanical science in America is making a rapid and healthy growth, and it seems enough to promise that the GAZETTE will present its readers during 1888 with much of the best fruit of this activity. But it is ready to promise something more. Arrangements have been made to give a diversified series of illustrated

ARTICLES ON EUROPEAN LABORATORIES

and of other objects and matters of botanical interest in the Old World, prepared for the most part by American botanists who are now studying or traveling abroad. These will doubtless prove both interesting and instructive.

As the subscription list is increased the publishers are able to add to the attractiveness and value of the journal, and to this end the following

OFFER TO OLD SUBSCRIBERS

is made: Any one upon renewing his subscription and sending the name of a *new subscriber*, with \$4.00, will have his own subscription extended six months.
